About this Report

This report is based upon the Match 6.5 assessment, which explores an individual's talents within a work context.

The results are based on a comparison with a group of 387 professionals and managers in the United Kingdom.

Since the questionnaire is a self-report measure, the results reflect the individual's self-perception. Our extensive research has shown this to be a good indicator of how people are likely to operate in the workplace. Nevertheless, due consideration must be given to the subjective nature of using an individual's self-perception in the interpretation of these data.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

The information contained within this report is likely to remain a good reflection of the individual's self-perception for 12-24 months, depending upon circumstances.

The report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the respondent, and reflects the responses they made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.

Interview Guide Introduction

This report is designed to enable you to conduct an interview against selected areas that are relevant to the role. Questions are provided to verify strengths and probe potential challenge areas for the candidate. The questions are driven by Sher Ree Tai's responses to the questionnaire. More questions and targeted probes are provided for areas that have been identified as critical for the role (highlighted by an *), as well as any where Sher Ree Tai's scores indicate a potential challenge area.

For each area, information is provided on how Sher Ree Tai rated themself on the assessment when compared to others on a 1 to 10 scale. Information is also provided on how Sher Ree Tai responded to the questionnaire - Ratings Acquiescence is a measure of how positive or self-critical a person has been in their self-ratings and Consistency of Rankings is a measure of how consistently a person has rank ordered characteristics. Please note that this is for the interviewer's information only and is not to be fed back to the candidate.

Scoring the Interview

Immediately after the interview, review the candidate's answers and assign a score for each interview area.

1	2	3	4	5
Poor	Marginal	Acceptable	Good	Excellent
Evidence provided is weak or even negative, and/or they are unable to provide positive examples for the area.	Demonstrated a limited amount of positive evidence and/or weak evidence against the area.	Generally provided positive evidence, with some weaker evidence against the area.	Provided strong positive evidence against the area, with limited weaker evidence.	Consistently provided very strong positive evidence against the area.

Introducing the Interview

- Introduce yourself and your role, and any other assessor attending the interview.
- Outline how long the interview will last.
- Explain that the interview questions are based on competencies which are essential for success within the role and some questions will be role-specific.
- Before beginning the interview, ask the candidate if they have any general questions they would like to ask about the role or the interview process.
- Ask if they require any adjustments to continue with the interview.

Space is provided below to record any candidate responses to the questions above (no scoring required):

Role-Specific Questions

Ensure the role-specific questions chosen are relevant to the experience, knowledge or skills which you listed in the job description and are required to do the role. Ask the same questions to all candidates.

Question 1

Tell us about a project that you are particularly proud of and about your process and its impact?

Notes from Interview

Her favourite project and the most useful related to getting everyone to understand the system before doing the design for O2 UP. No documentation existed and she needed to understand how it would work so she talked to the developers and did research and she wanted to avoid hitting a wall with the designs and her documentation has cut down on a lot of the problems with the O2 app. She took on doing this herself because she wanted to understand what she had been asked to do.

This answer really related to doing the research before a project than to doing the project itself and we didn't learn about the outcome.

Negative	1	2	3	4	5	Positive

Total 3

Role-Specific Questions

Ensure the role-specific questions chosen are relevant to the experience, knowledge or skills which you listed in the job description and are required to do the role. Ask the same questions to all candidates.

Question 2

Tell us about how you work with researchers, developers and alongside other designers to ensure seamless end to end outcomes.

Notes from Interview

She has learned ways to work agile. She aligns with the design team and uses the 3 amigos approach to cohesion. she stepped in to help the team on the VM app as their manager had gone on maternity leave and she kept delivery going as well as creating a bible on the customer journey which has helped to cut down on people chasing each other and this is still in use with all of the links to design for a product in one place and all of the necessary information.

A good answer with different answers of collaboration.

Negative	1	2	3	4	5	Positive

Total 4

Creating Innovation*

When have you recently come up with a new idea that was acted upon?

- What was new about the idea?
- What other options did you think about?
- What wider impact did the idea have?

* What made you want to come up with something new?

She looked at what could be done better in the My O2 app in a workshop and she had the idea for a dashboard of benefits and although she is still doing the research there has been good feedback. Testing is ongoing and there is not much insight yet on potential benefits.

Its not clear if this is completely her own idea or a collaboration but it is something new that she is working on.

© 2026 Saville Assessment. All rights reserved.

Creating Innovation*

When have you suggested a different way of doing something?

- What was different about what you were suggesting?
- What benefits were there to your suggestion?
- How did others react to your suggestion?

* What did you like about your suggested approach?

Creating Innovation Interview Score

Negative	1	2	3	4	5	Positive
Lacks creativity						Generates ideas
Fails to explore different possibilities and concepts						Effectively explores different possibilities and concepts
Weaker at contributing to strategy						Contributes effectively to strategy

Total 3

Evaluating Problems*

When have you had to sort through a lot of information to figure out the best solution?

- What information did you look at?
- How did you break it down?
- What did you uncover from it?

* What made you want to sort through it?

Work on building the customisation journey showed a lot of drop offs and the purpose was to improve ways to get the customer journey finished. She led on a workshop and they looked at a lot of data and did a lot of testing and recognised that customers wanted to be able to more easily edit their basket. the test version worked really well.

We didn't really get a sens of how much information she had to sort through too come up with her solution options.

Evaluating Problems*

When have you had to make sense of data to solve a problem?

- What did you need to understand?
- What helped you get to the answer quickly?
- How did your answer solve the problem?

* What did you enjoy about working with the data?

Evaluating Problems Interview Score

Negative	1	2	3	4	5	Positive
Weak at analysing information						Analyses information effectively
Fails to summarise information						Summarises information well
Poor at interpreting data						Interprets data well

Total 3

Communicating Information*

When have you recently had to explain complex information clearly?

- What were the key points?
- What was most persuasive in what you said?
- How did you respond to any questions?

* What did you enjoy about communicating this information?

O2 billing project - there was a lot of communication around explaining documentation and sje created a billing library with answers to questions which has helped.

New and innovative pulling together of a lot of information and becoming a subject matter expert of billing - both new and innovative but more detail on what she did and its impact would have been good.

Communicating Information*

When have you challenged someone's opinion during a discussion?

- What point did you raise?
- What made you speak up?
- How well was what you said received?

* How did you feel about challenging their opinion?

Communicating Information Interview Score

Negative	1	2	3	4	5	Positive
Fails to communicate persuasively						Communicates persuasively
Fails to explain information well						Explains information effectively
Avoids challenging others						Challenges others effectively

Total 4

Processing Details

When have you worked quickly with a particular focus on detail?

- What steps did you take?
- What extra did you do to make sure the details were right?
- How did you ensure you got it done quickly?

* Why did getting it right matter to you?

Careful attention to detail was needed on a cross brand design. She went through the information with her colleagues back and forth in order to get the details right. She has pulled through the master file to do testing and to see if the design breaks rather than just doing the design and she wants it to be right from the start and usable by anyone else who wants to pick up the design.

A good project but no mention of why it needed to be done quickly which was the question.

Processing Details Interview Score

Negative	1	2	3	4	5	Positive
Lacks focus on meeting deadlines						Works hard to meet agreed deadlines
Prepared to compromise on accuracy						Places strong emphasis on accuracy and checking details
Deviates from important procedures						Follows procedures

Total 4

Driving Success

When have you recently pushed hard to reach an important goal?

- What actions did you take?
- How did you go beyond what was expected?
- What were the benefits of achieving the goal?

* Why was this goal important to you?

Doing the design bible she wanted to challenge herself and to show she is ready for a more senior role. Every journey from basket to the checkout is covered and she wanted to be able to understand the journey herself. the bible is important as in such a big organisation others may need to have the information.

Driving Success Interview Score

Negative	1	2	3	4	5	Positive
Slow to take action						Takes decisive action
Reluctant to pursue opportunities						Seizes good opportunities
Lacks drive to achieve outstanding results						Driven to achieve outstanding results

Total 3

Structuring Tasks

When have you felt the need to take on organising something at work?

- How did you organise the key tasks?
- How did you manage to meet all your work commitments?
- How much extra work did you need to do yourself?

* Why did you choose to organise this?

This answer was about managing her squad goals versus other stuff and referred back to pulling information together for a user guide and was less about organising than about researching, understanding and pulling information together.

Structuring Tasks Interview Score

Negative	1	2	3	4	5	Positive
Organisation of tasks and priorities is poor						Organises tasks and priorities effectively
Puts little effort into maintaining standards						Works hard to uphold standards
Works slowly						Gets a lot done

Total 3

Recommendation

Total Score 27

Some good answers but too often a lack of enough detail of what she had done and the outcomes in the answers to the competency questions.
